CAREER OBJECTIVE

CompTIA A+, Network+ and Security+ certified career changer with more than 20 years in practical technical and customer-facing roles. Seeking an entry-level opportunity in IT support, networking or cybersecurity in Auckland. Brings professional fault-finding, customer communication and technical coordination experience, supported by full-time IT study since November 2025 and practical lab training.

CERTIFICATIONS AND EDUCATION

- CompTIA A+ - January 2026 | Network+ - March 2026 | Security+ - May 2026
- EC-Council Certified Ethical Hacker (CEH) - Studying towards certification
- French electrical qualifications - NZQA assessed at Level 4

CORE SKILLS

- Systems and support: Windows/Linux fundamentals, regular macOS use and Microsoft 365 end-user experience; personal Windows installation and troubleshooting.
- Networking: TCP/IP, IPv4 addressing and subnetting, DNS, DHCP, Wi-Fi, common ports and protocols, and routing/switching fundamentals developed through CompTIA study.
- Security: Security fundamentals and introductory vulnerability assessment; basic personal Nmap practice and guided use of Wireshark, Kali Linux, Burp Suite and Metasploit.
- Technical service: Professional fault finding, customer communication, prioritisation, escalation, independent field work and coordination with suppliers and other trades.
- Developing skills: Bash, PowerShell and Python fundamentals; recording technical notes and lab results in Obsidian.

PROJECTS AND PRACTICAL TRAINING

- Personal home lab: Uses Kali Linux and Metasploitable 2 virtual machines to practise scanning and exploitation in an intentionally vulnerable training environment, including a vsftpd 2.3.4 exercise and checking resulting access privileges.
- Guided training: TryHackMe, Hack The Box Academy and EC-Council labs covering Windows/Linux, networking, packet analysis, reconnaissance and web application security.
- Study documentation: Records commands, troubleshooting steps and lab results in Obsidian to support continued practice and review.

JOHAN GRILLON

Professional experience

Frenchy's Crepes | Business Owner and Operations Manager

Takapuna, Auckland | December 2023 - November 2025

- Managed purchasing, suppliers, stock, administration, regulatory requirements and customer service.
- Resolved day-to-day operational and equipment problems, prioritised issues and coordinated external support.

Team Cabling Ltd | Electrical Contractor

Auckland | 2023 - 2024

- Completed residential and commercial electrical installation, fit-out, wiring and switchboard work.
- Worked independently and alongside other trades to New Zealand electrical standards.

Sona Air Ltd | Senior Electrician

Auckland | September 2020 - June 2023

- Diagnosed electrical and control faults across commercial sites, working with HVAC technicians to investigate equipment issues.
- Coordinated technical work and communicated findings with customers and other trades.

Ciela Village / La Farigoulette | Technical Manager

France | February 2019 - June 2019

- Coordinated and prioritised maintenance, technical purchasing and external contractors across a large holiday resort.

BIO Habitat | Regional After-Sales Field Technician

PACA Region, France | September 2012 - December 2018

- Travelled independently between customer sites to diagnose and resolve electrical, electromechanical and general equipment faults.
- Planned routes, prepared parts and tools, managed vehicle stock, communicated findings and escalated complex issues.

Earlier Electrical and Maintenance Experience

France | Multiple employers and self-employment | 2004 - 2012

- Built practical experience in troubleshooting, customer service, independent field work, physical installation and safety.
- As the owner of Grillon Eco Elec, handled quotes, invoices, purchasing, scheduling and customer-site work.
